PROJECTS

- **E-commerce Web Application (2025):** Designed and implemented an e-commerce food app using React, Tailwind CSS, Node js, Express js and MongoDB database, with admin panel.

- **IoT-Based Electricity Monitoring and Control System via Web Interface:** SmartWatt is an IoT-powered web application that allows real-time control of home electrical devices and monitors electricity consumption. It calculates power usage, estimates billing, and provides an intuitive web dashboard for remote switching and analytics.

- **Another Projects:** And another projects are present in my github account.

HOBBIES & INTEREST

- Listening songs
- Bike riding
